

Peak DSP Release Notes

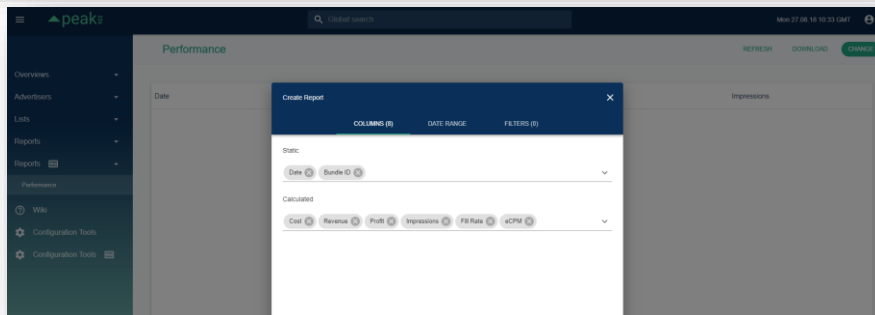

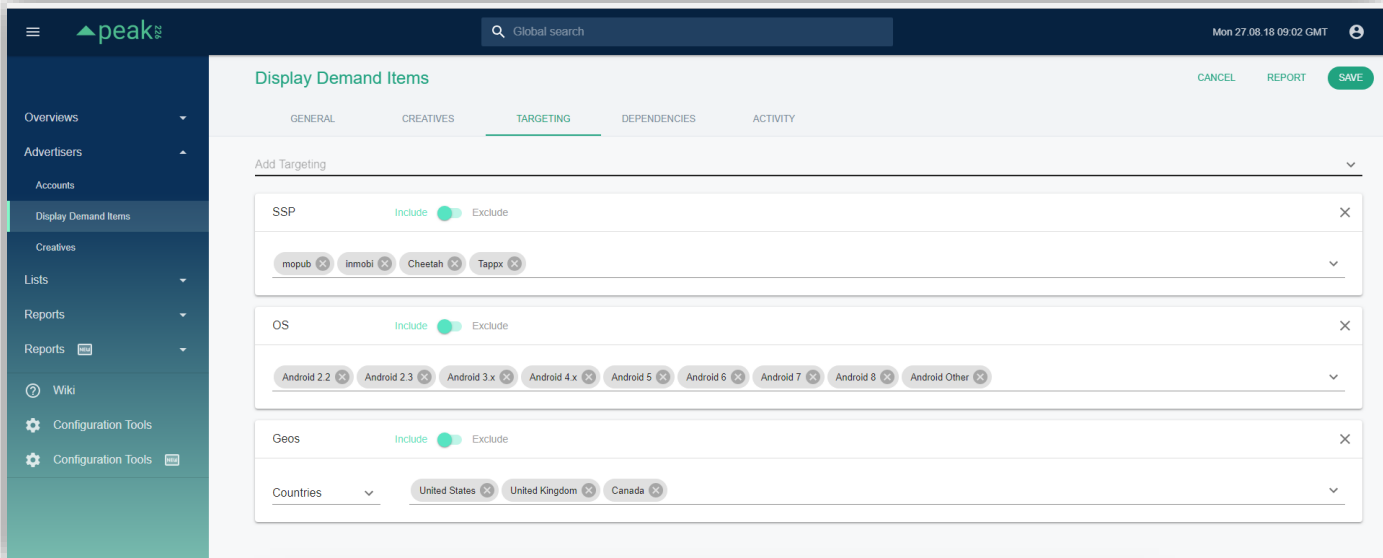

September 4, 2018

NEW User Interface!

We're excited to share Peak DSP's brand new & sleek UI 😊

Beyond a new look, you'll find: an improved Targeting and Reports section, new tools for better use, and more.

Have a look yourself!

And We Keep On Growing...

Peak DSP now enables programmatic buying for both display and video at no risk for the advertiser.

We would be more than happy to hear from you or the relevant contact on your team and schedule a call/short demo if relevant.
