Peak DSP Release Notes

peak 226

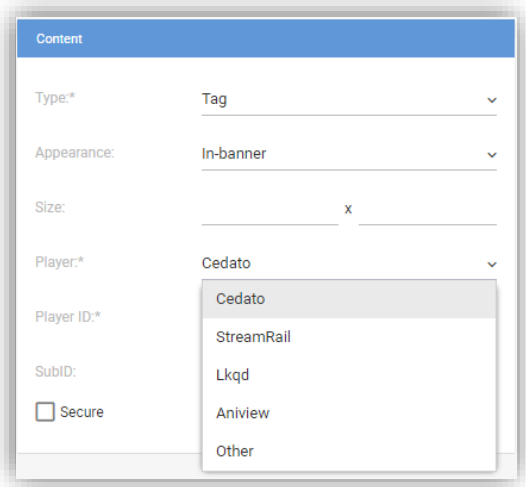
February 7, 2018

Built-In Player Templates

No More Broken Tags!

- A new fast & precise creative upload process!
- All you need to do is choose the relevant player → add your parameters → start working!
- It's as simple as that ☺

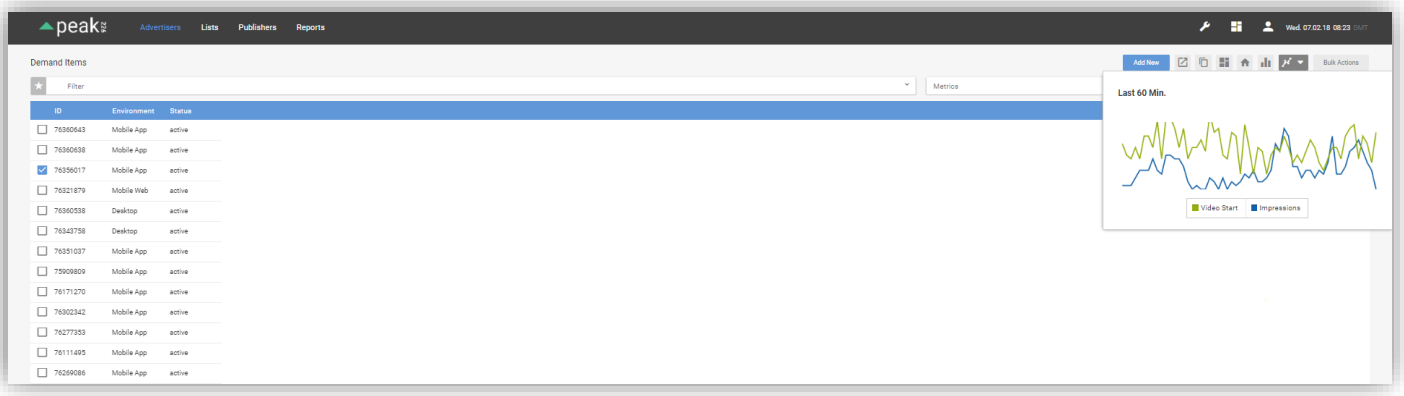
- If your chosen player does not appear on the list, choose "Other"



Demand Item "Pulse Check"

Is the Demand Item Live?

For a quick monitoring of your Demand Items, you can see a live status of impressions and views 60 minutes back



In Addition

- Small Bug Fixes
